

# Insurance just got easy!

## Vision Source

### Introducing the new Vision Source Franchise Insurance Gateway...

As Vision Sources' newly endorsed insurance and risk management firm, we want to invite you to explore the dedicated Vision Source franchisee insurance portal. Here you will be able to complete a simple application for insurance and gain access to various tools and resources to assist you in managing risk within your business.

Within the next week you will receive a separate e-mail containing a link to the Vision Source franchisee insurance portal. It will also contain a personal invitation code that will give you access to an application for insurance that is pre-populated with basic information about your business.

Finishing the application to receive your quote will be **Quick & Easy!**

Once you receive the link, please feel free to explore the site and review the risk management tools and resources developed specifically for Vision Source franchisees.

For those that have already insured their business with us, simply enter your invitation code and complete the first page of the application to establish a log-in. You will then have full access.
